Landscape Evolution, Neotectonics and Quaternary Environmental Change in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments

Landscape Evolution, Neotectonics and Quaternary Environmental Change in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments

Founded in 1966, the internationally recognized and acclaimed Series 'Palaeoecology of Africa' publishes interdisciplinary scientific papers on landscape evolution and on former environments of the African continent. Beginning with topics such as changes in climate and vegetation cover, the papers expand horizons and interconnections to various types of environmental dynamics from the Cainozoic up to the present; moreover, the aspect of human influence since the Late Quaternary is related to many of the areas studied.

Volume 31 presents four comprehensive papers on long- and short-term processes of landscape evolution (geological history, neotectonics and proxy Quaternary alluvia), as well as a recent regional perspective on environmental problems in Southern Cameroon. The book acts as a showcase for successful North-South cooperation and capacity building for empowering African Universities. It is problem oriented and applied, and illustrates how scientific and interdisciplinary cooperation can work. In the framework of the German Research Foundation's (DFG, Deutsche Forschungsgemeinschaft) funded "Rain Forest Savanna Contact" project (2003-2009) two abbreviated English versions of PhD theses are here published, one by J. Eisenberg on neotectonics and the other by M. Sangen on river sediments in rain forest-savanna transitional zones. Complementary articles are an introduction on geological history, by B. Kankeu et al. and a paper on environmental risks by M. Tchindjang et al., together these complete the results of this joint German-Cameroonian research project.

This book will be of interest to all concerned with ecosystems dynamics, tropical forests, savannas and related development problems of Third World countries, especially regional planners, ecologists, botanists, earth scientists and students of the Quaternary (e.g. LGM and Holocene ecosystem dynamics, Global Change). It will be valuable for advanced undergraduates and postgraduates as a reference for new research articles on the topic of long-term geologic-tectonic and Quaternary landscape evolution in an up-to-now not well explored marginal area of the Western Congo basin.

From reader reviews:

Mary York:

The book Landscape Evolution, Neotectonics and Quaternary Environmental Change in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments has a lot of information on it. So when you check out this book you can get a lot of gain. The book was published by the very famous author. The writer makes some research ahead of write this book. This particular book very easy to read you can obtain the point easily after looking over this book.

Jonathan Gomes:

Reading can called thoughts hangout, why? Because while you are reading a book mainly book entitled Landscape Evolution, Neotectonics and Quaternary Environmental Change in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments the mind will drift away trough every dimension, wandering in every single aspect that maybe mysterious for but surely can be your mind friends. Imaging just about every word written in a guide then become one contact form conclusion and explanation which maybe you never get before. The Landscape Evolution, Neotectonics and Quaternary Environmental Change in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments giving you another experience more than blown away your thoughts but also giving you useful info for your better life within this era. So now let us explain to you the relaxing pattern is your body and mind will likely be pleased when you are finished looking at it, like winning a casino game. Do you want to try this extraordinary paying spare time activity?

Ronald Stauffer:

Are you kind of occupied person, only have 10 or 15 minute in your time to upgrading your mind expertise or thinking skill actually analytical thinking? Then you are experiencing problem with the book in comparison with can satisfy your short space of time to read it because all this time you only find e-book that need more time to be examine. Landscape Evolution, Neotectonics and Quaternary Environmental Change in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments can be your answer since it can be read by you actually who have those short extra time problems.

John Lockett:

Don't be worry when you are afraid that this book can filled the space in your house, you can have it in e-book way, more simple and reachable. This particular Landscape Evolution, Neotectonics and Quaternary Environmental Change in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments can give you a lot of pals because by you taking a look at

this one book you have issue that they don't and make an individual more like an interesting person. This specific book can be one of one step for you to get success. This guide offer you information that might be your friend doesn't know, by knowing more than some other make you to be great persons. So , why hesitate? Let us have Landscape Evolution, Neotectonics and Quaternary Environmental Change in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments.
