See those animal signs on the trail? Was that footprint left by a fox or a wolf? Was that pile of droppings deposited by a moose, a mouse, or a marten? *Scats and Tracks of the Great Lakes* will help you determine which mammals, birds, reptiles, and amphibians have passed your way and could still be nearby. Clearly written descriptions and illustrations of scats, tracks, and gait patterns will help you recognize seventy Rocky Mountain species. An identification key, a glossary of tracking terms, and detailed instructions on how to document your finds are also included here. Easy-to-use scat and track measurements appear on each page, making this book especially field friendly and letting you know if a white tailed ptarmigan, a red fox, or even a black bear has been your way.
