Alfresco 3 Enterprise Content Management Implementation Amita Shariff, Munwar Majmudar
Munwar Shariff is an experienced software trainer for CIGNEX Technologies Inc. He has trained many
users, administrators, and developers in Alfresco and many other CMS systems. This book distils the hands-
on approach of his training courses into a concise, practical book. The emphasis is on getting up and running
fast and discovering the scope and power of Alfresco 3 incrementally through practical examples. This book
is designed for system administrators, experienced users, and business owners who want to install and use
Alfresco in their teams or businesses. Because Alfresco is free, many teams can install and experiment with
its ECM features without any upfront cost, often without management approval. The book assumes a degree
of technical confidence but does not require specialist system administration or developer skills to get a basic
system up and running. Alfresco is particularly suitable for IT consultants who want or need to set up a
flexible enterprise content management system for their clients, be that for demonstration, development, or
as a mission-critical platform.
