Across our country educational policies and practices are killing our students' desire to learn and teachers' passion to teach. The central theme of this book is that high-stakes testing is having a critically deleterious effect on our students. The fallout impacts parents, teachers, schools, districts and states. Horace 'Rog' Lucido uses language and supporting evidence that is clear and relatable to the reader. Rarely is the topic of teacher care and concern for students ever embedded in works on educational theory and practice, but here it is championed as the driving force for change, exposing the causes and chronicling the effects of educational malfeasance.
