A Barn in New England: Making a Home on Three Acres Joseph Monninger

The beauty of the New England countryside, the joys of forming a new family, and the adventure of renovating a nineteenth-century barn come together in Joe Monninger's warm and evocative memoir of home and hearth. When the author and his black Labrador, and Wendy and her eight-year-old son, move into a 6,000-square-foot barn in New Hampshire, they fall in love with the building, not realizing how much work it will take to remodel--let alone heat--their new home. While building a fence, putting in a garden, renovating the house, and exploring the land, the author finds his family's new life rooted in the area's old traditions, learning the history of covered bridges and New England's witchy past. They discover the best way to trim the grass (sheep), the delight of moving a 14-foot Christmas tree into their living room, and the spooky fun of holding a seance for Halloween. With the charms of New England front and center, this endearing memoir captures the pleasures large and small of making a new place your own.
