Talking Wolves: Thomas Hobbes on the Language of Politics and the Politics of Language (Synthese Library) A. Biletzki

Talking Wolves advances an analysis of Hobbes which takes language seriously (as seriously as Hobbes took it). It presents a reading of Hobbes's view of society at large, and political society in particular, through a comprehensive discussion based on, and intimately linked to, his philosophy of language. This philosophy, in turn, is seen in a new light as being a pragmatic theory of language in use, language in action.
