Designed Technologies for Healthy Aging (Synthesis Lectures on Assistive, Rehabilitative, and Health-Preserving Technologies) Claudia B. Rebola

Designed Technologies for Healthy Aging identifies and presents a variety of contemporary technologies to support older adults' abilities to perform everyday activities. Efforts of industry, laboratories, and learning institutions are documented under four major categories: social connections, independent self care, healthy home and active lifestyle.

The book contains well-documented and illustrative recent examples of designed technologies—ranging from wearable devices, to mobile applications, to assistive robots— on the broad areas of design and computation, including industrial design, interaction design, graphic design, human-computer interaction, software engineering, and artificial intelligence.

Table of Contents: Acknowledgments / Introduction / Social Connections / Independent Self Care / Healthy Home / Active Lifestyle / Conclusion / Contributors / Companies, Laboratories and Institutions / About the Author

From reader reviews:

Sheila Walker:

Reading a e-book tends to be new life style with this era globalization. With studying you can get a lot of information which will give you benefit in your life. Having book everyone in this world can share their idea. Ebooks can also inspire a lot of people. Lots of author can inspire their reader with their story or even their experience. Not only the storyline that share in the guides. But also they write about the ability about something that you need example of this. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book that exist now. The authors on this planet always try to improve their proficiency in writing, they also doing some analysis before they write for their book. One of them is this Designed Technologies for Healthy Aging (Synthesis Lectures on Assistive, Rehabilitative, and Health-Preserving Technologies).

James Oliver:

People live in this new day time of lifestyle always attempt to and must have the spare time or they will get great deal of stress from both daily life and work. So , whenever we ask do people have free time, we will say absolutely yes. People is human not really a huge robot. Then we inquire again, what kind of activity are you experiencing when the spare time coming to you actually of course your answer may unlimited right. Then ever try this one, reading textbooks. It can be your alternative inside spending your spare time, typically the book you have read is usually Designed Technologies for Healthy Aging (Synthesis Lectures on Assistive, Rehabilitative, and Health-Preserving Technologies).

Carla Ramirez:

Is it anyone who having spare time after that spend it whole day simply by watching television programs or just lying down on the bed? Do you need something totally new? This Designed Technologies for Healthy Aging (Synthesis Lectures on Assistive, Rehabilitative, and Health-Preserving Technologies) can be the solution, oh how comes? The new book you know. You are consequently out of date, spending your time by reading in this brand new era is common not a nerd activity. So what these guides have than the others?

Beatrice Flanagan:

As a college student exactly feel bored to reading. If their teacher requested them to go to the library as well as to make summary for some guide, they are complained. Just very little students that has reading's soul or real their hobby. They just do what the trainer want, like asked to go to the library. They go to right now there but nothing reading really. Any students feel that examining is not important, boring and also can't see colorful pictures on there. Yeah, it is for being complicated. Book is very important to suit your needs. As we know that on this age, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. So , this Designed Technologies for Healthy Aging (Synthesis Lectures on Assistive, Rehabilitative, and Health-Preserving Technologies) can make you truly feel more interested to read.
