## Evaluation and Treatment of the Infertile Male

This volume provides a comprehensive account of the evaluation and treatment of the infertile male. It is suitable for all physicians who encounter this common medical problem. Despite the prevalence of male infertility as a common underlying cause of infertility, its evaluation and treatment remains a difficult and misunderstood area for many doctors - a problem this volume aims to overcome. It includes chapters which review the full range of modern techniques now available for analysing semen and identifying the underlying cause of infertility, and then goes on to consider the various treatment options. The volume also discusses endocrine assessment and treatment, psychological aspects of male infertility, and includes a chapter on female infertility. This will be a valuable source of reference for general practitioners and physicians, urologists and gynaecologists.
