Quality Assurance in Analytical Chemistry Bernd W. Wenclawiak

This new edition of a successful textbook has been completely revised and enlarged. In particular the chapters on measurement uncertainty, calibration and validation are practically all new. The authors provide an in-depth but easy to understand coverage of quality assurance for chemical measurements. This includes both internal as well as external quality assurance, necessary statistics as well as total quality management. All this is presented with more than 800 commented slides, which are also provided as downloadable Extra Material. The book will serve as an advanced textbook for analytical chemistry students and professionals in industry and service labs and as a reference text and source of course materials for lecturers.
