**The Eclipse Graphical Editing Framework (GEF) (Eclipse Series)** Dan Rubel, Jaime Wren, Eric Clayberg

As Eclipse-based applications become increasingly popular, users are demanding more sophisticated graphical interfaces. When standard widgets aren't enough, graphics built with GEF are often the best solution. ***The Eclipse Graphical Editing Framework (GEF)*** covers everything Java tool developers need to create tomorrow's richest, most visual interfaces.

This practical, hands-on guide begins by introducing GEF, Draw2D, and Zest, and demonstrating what can be achieved with them. Next, the authors walk through building a simple Draw2D example, helping new GEF developers understand the core capabilities available to them. Building on this foundation, they progressively introduce more of the Draw2D frameworks, including Figures, Layout Managers, Connections, Layers, and Viewports. They present a chapter-length graph visualization project based on Zest, followed by detailed coverage of non-Draw2D portions of GEF.

The book's final section walks step by step through developing a complete GEF editor. Each chapter focuses on a different aspect of the problem, and includes challenges, solutions, diagrams, screenshots, cookbook-style code examples, and more.

This book is organized to help developers solve immediate problems quickly, while also gaining in-depth knowledge for building advanced solutions. Relevant APIs are included in several chapters, making this an even more useful standalone reference.

This book

- Introduces GEF application components such as shapes, flow, logic, and text
- Explains Draw2D architecture, drawing features, and event processing
- Shows how to create and customize figures, use painting and borders, and work with each Draw2D Layout Manager
- Thoroughly explains GEF models, including domain and presentation information, populating diagrams, and more
- Shows how to use Zest's content providers, filters, and layout algorithms
- Covers EditParts, EditPolicies, Tools, Commands, Actions, and much more

## **The Eclipse Graphical Editing Framework (GEF)**

is the best resource for all Java tool developers who want to construct sophisticated graphical editing products that integrate with Eclipse, for experienced Eclipse users who want to start creating their own graphical tools, and for anyone who wants to see what makes GEF tick.

### **From reader reviews:**

#### **Danny Whittemore:**

Reading a publication can be one of a lot of exercise that everyone in the world enjoys. Do you like reading book thus. There are a lot of reasons why people like it. First reading a guide will give you a lot of new facts. When you read a publication you will get new information due to the fact book is one of various ways to share the information as well as their idea. Second, reading a book will make a person more imaginative. When you studying a book especially fiction book the author will bring someone to imagine the story how the characters do it anything. Third, you could share your knowledge to other folks. When you read this The Eclipse Graphical Editing Framework (GEF) (Eclipse Series), you can tells your family, friends as well as soon about yours e-book. Your knowledge can inspire different ones, make them reading a e-book.

#### **Anita Jones:**

Reading a guide tends to be new life style in this era globalization. With looking at you can get a lot of information that will give you benefit in your life. Having book everyone in this world could share their idea. Textbooks can also inspire a lot of people. Lots of author can inspire their own reader with their story or their experience. Not only the story that share in the ebooks. But also they write about advantage about something that you need instance. How to get the good score toefl, or how to teach children, there are many kinds of book that you can get now. The authors in this world always try to improve their expertise in writing, they also doing some exploration before they write to their book. One of them is this The Eclipse Graphical Editing Framework (GEF) (Eclipse Series).

#### **Todd Pfeifer:**

This The Eclipse Graphical Editing Framework (GEF) (Eclipse Series) is great reserve for you because the content that is certainly full of information for you who else always deal with world and also have to make decision every minute. This book reveal it information accurately using great organize word or we can say no rambling sentences in it. So if you are read the item hurriedly you can have whole info in it. Doesn't mean it only provides you with straight forward sentences but tough core information with lovely delivering sentences. Having The Eclipse Graphical Editing Framework (GEF) (Eclipse Series) in your hand like finding the world in your arm, information in it is not ridiculous 1. We can say that no reserve that offer you world in ten or fifteen minute right but this guide already do that. So , this is good reading book. Hi Mr. and Mrs. busy do you still doubt that will?

#### **Shannon Thompson:**

Is it anyone who having spare time subsequently spend it whole day simply by watching television programs or just telling lies on the bed? Do you need something new? This The Eclipse Graphical Editing Framework (GEF) (Eclipse Series) can be the solution, oh how comes? The new book you know. You are therefore out of date, spending your time by reading in this brand-new era is common not a geek activity. So what these

books have than the others?
