## **The Origin and Evolution of Mammals** T. S. Kemp

Mammals are the dominant large animals of today, occurring in virtually every environment. This book is an account of the remarkable fossil records that document their origin since the extinction of the dinosaurs. Tracing their evolution over the last 35 million years. For the first time presented in one single volume Kemp unveils the exciting D.N.A. sequence evidence which coupled with fossil evidence challenges current thinking on the relationships amongst mammal and their inferred history.
