## Earth & Eros: A Celebration in Words and Photographs

In the tradition of *The Sense of Wonder* by Rachel Carson and *On the Loose* by Terry and Renny Russell, *Earth & Eros* combines words and photographs to inspire readers to deepen their connection with the good Earth. The book awakens readers to the full force of eros — life force that connects us to our bodies, other humans, all living beings, and the Earth as a living being.

Intended as an antidote to an age obsessed by speed, screens, and machines, this book brings together previously published prose and poetry with 25 fine art landscape photographs to explore the sacred erotic dimension of humans' relationship to the Earth.

The writings in *Earth & Eros* were chosen for their brevity, readability, beauty, and potency, and the photographs for their sensuality. Readers engage with writers such as David James Duncan, Hart Crane, Diane Ackerman, Sherman Alexie, D. H. Lawrence, Mary Oliver, and Pablo Neruda. Some of the pieces of writing are explicitly sexual, while others appreciate the sensuality of tree limbs, seeping water, mushrooms, and ferns. *Earth and Eros* is beautifully produced and a pleasure to hold and to look at, a book to read and reread slowly, out loud.
