Horses: Past and Present (Tony Stead Nonfiction Independent Reading Collections) Marianne Johnston

This informative series helps students make connections between animals of today and their ancient relatives. The books include photographs of actual fossils, as well as pictures of what scientists think early animals looked like when they were alive. What better way to learn about how climate, environment, and natural selection affect the evolution of a species? Striking pictures and fact-filled text help kids understand that all living creatures must adapt in order to survive.
