Princes of Darkness: The Saudi Assault on the West Laurent Murawiec

Princes of Darkness is a highly critical expose of Saudi Arabia and attacks the elite inside that country as enemies of the western world. By extension this is also a criticism of the U.S. foreign policy that has supported the royal family. It should be noted that the genesis of this book comes from the author's intensely controversial and subsequently leaked Defense Department briefing in July 2002, while serving as a senior international policy analyst at RAND.
