Workbook for Laboratory and Diagnostic Testing in Ambulatory Care: A Guide for Health Care Professionals Marti Garrels

Reinforce your understanding of laboratory concepts, terminology, and procedures! Corresponding to the chapters in *Laboratory and Diagnostic Testing in Ambulatory Care, 3rd Edition*, by Marti Garrels, this workbook provides activities and exercises for additional practice with lab testing skills. Skills check-off sheets track your progress as you become competent with laboratory and diagnostic procedures, and are designed to help you meet government standards for good laboratory practice.

- **Chapters are organized into five sections:** 1) terminology exercises, 2) review questions for fundamental concepts, 3) procedures, 4) advanced concepts, and 5) check-off procedure sheets for all the procedures presented in the textbook chapter.
- **Review exercises** test your knowledge of terminology, with exercises challenging you to match vocabulary terms with their definitions and to identify common acronyms.
- **Skills checklists** ask you to read, perform, and check off each step on the sheet to track your progress as you perform the chapter's lab procedures and analytical tests.
- **A useful appendix** includes forms for documenting safety, quality assurance, and CLIA compliance.
- **NEW practice exercises** match the text with a focus on new technology and significant advances made in recent years, including the latest CLIA waived test methods.
- **NEW *Electrocardiography and Spirometry* chapter** includes review exercises, questions, and skills checklists for *these diagnostic tests*.
