DB2 9 for z/OS Database Administration: Certification Study Guide Susan Lawson, Daniel Luksetich
Written primarily for database administrators who work on the IBM z/OS system and who are taking the
DB2 9 Database for z/OS Certification exam (Exam 732), this resource also appeals to those who simply
want to master the skills needed to be an effective database administrator on z/OS systems. The guide covers
all topics on the exam, including database design and implementation, operation and recovering, security and
auditing, performance, and installation and migration. Complete with sample questions and detailed
answers—as well as a full-length practice exam—this study guide serves as an essential tool. Programmers
will learn how to create, maintain, and administer DB2 9 databases on the z/OS platform and how to
implement XML with a DB2 9 database, making them successful database administrators after they pass
certification.
